

I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide instant traffic and weather on XM. XM provides more detailed information about traffic and weather than I have ever heard on any radio station.

I am tired of other people telling me what I will listen to. That is why I pay for radio services like XM. Please do not let these same people tell you that I should have no rights to choose!

If they are so concerned, they should do a better job themselves!
